### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert W. Downs on January 20, 2006.

The application has been amended as follows:

The withdrawn claims 10, 23, 36 and 40-42 have been canceled to place this application in condition for allowance.

2. The following is an examiner's statement of reasons for allowance:

The present invention is directed to an image processing method. Each independent claims identifies the uniquely distinct features: "extracting, as a light portion, an area in which the pixel value is equal to or larger than a predetermined threshold value from the multi-resolution image data in a first of said plurality of frequency band; generating histogram, corresponding to the light portion, from the multi-resolution image data in frequency band higher than the first frequency band; and quantifying the sense of contrast based on said histograms". All the references of record, either singularly or in combination, fail to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
